	OUR PRINTER VOLUME IS LOW TO MODERATE (prefer inkjet)	<b>INKJET MULTIFUNCTION/ ALL IN ONE</b>	●	●		●	●	●	●	●	●	●
 <p>Want a copier with other features?</p>		<b>MULTIFUNCTION DIGITAL COPIER (BLACK &amp; WHITE ONLY)</b>	●	●		●	●	●			●	●

## Printer Facts

### 1. Print-Copy Speed:

How fast does it print? Indicated as ppm, cpm, or ISO ipm (pages per minute, copies per minute, or International Standards Organization images per minute).

### 2. Network Capable:

You can connect several computers to this printer using a 10/100 Network system.

### 3. Wireless Capable:

The ability to link to, and communicate with, other devices without cords.

### 4. Print - Copy Resolution:

Print-Copy quality, the larger the number, the better the quality. Indicated as dpi (dots per inch).

### 5. Time to First Page/Copy:

How fast the first page will come out.

### 6. Paper Tray Capacity:

How many sheets of paper the tray will hold. The larger the number, the less time wasted reloading the machine.

### 7. Auto Duplexing:

Capability of copying two pages and transferring them to the front and back of one page.

### 8. Photo Printing:

Capability of printing borderless photos at very high resolutions.

### 9. Media Card Slots:

Most digital products now record information, pictures, music on media cards in formats such as SD, Memory Stick, Compact Flash, etc. Some printers have slots that will read the information and print it directly off the card without need of a PC.

### 10. Duty Cycle:

Defined as the maximum number of pages per month of imaged output

### 11. Fax vs. PC Fax:

Fax will transmit a document upon scanning, and it will also print incoming documents immediately. PC Fax means it scans the document to the computer first, then faxes it. Incoming faxes will be stored in the computer as documents.

### 12. Are cables included in the box?

Most printing products do not include connectivity cables. Make sure you order the cables you need.
